

## **CS 492/493 Progress Report.**

*Instructions: Each team member should enter their activities performed for the capstone project in the last two weeks, as well as their expected activities for the next two weeks, along with anything holding them up on completing their activities. These should be discussed by the team and their advisor(s) during the weekly/biweekly meetings, and the advisor(s) should sign and date the sheet indicating a correct assessment of the team's progress. Students need to upload a signed and scanned version to blackboard. Progress reports uploaded to blackboard without a signature and score for progress will receive a 0 for progress.*

**Team/Project Name: Project Rebel**

**Team Member #1: Seth Thaelke**

*What I did since last progress report:*

See below for Grant's comments. Fleshing out the user experience on the projects page of the app, designing a trial expiration message/card, minor back end fixes, etc.

*Anything holding me up on my last progress report's expected activities:*

Nothing.

*What I plan to do before the next progress report:*

Work with Grant to finish the feedback form, miscellaneous fixes, design work, maybe migrating some of the functionality from the projects page to the libraries page.

**Team Member #2: Grant Haataja**

*What I did since last progress report:*

*We've made extensive progress since last semester. Back end for most necessary functionality is working. Project specifications are much more fleshed out. Front end web application interface is working in most areas, and nearly all Vue components for each part of the application have been implemented. Current goal for web app launch is March 2<sup>nd</sup>.*

*Anything holding me up on my last progress report's expected activities:*

Nope.

What I plan to do before the next progress report:

*Finish working on the feedback form for users to send Project Rebel feedback, and work on other miscellaneous tasks wherever needed to help everything get done for product launch.*
