CS 492/493 Progress Report.

Instructions: *Each team member should enter their activities performed for the capstone project in the last two weeks, as well as their expected activities for the next two weeks, along with anything holding them up on completing their activities. These should be discussed by the team and their advisor(s) during the weekly/biweekly meetings, and the advisor(s) should sign and date the sheet indicating a correct assessment of the team's progress. Students need to upload a signed and scanned version to blackboard. Progress reports uploaded to blackboard without a signature and score for progress will receive a 0 for progress.*

Team/Project Name: Project Rebel

Team Member #1: Seth Thoelke

What I did since last progress report:

Prepping for remote work and being efficient while at home. Worked more on the touring system for the app, and started switching to a different tour plugin that better suits our needs.

Anything holding me up on my last progress report's expected activities:

See Grant's response for more details—things have been shifting dramatically the last few weeks. Not much holding me back in terms of development itself, though.

What I plan to do before the next progress report:

Finish implementing the new touring plugin; it's mostly done, but more testing and debugging needs to be done. After that, whatever Nolan has for me.

Team Member #2: Grant Haataja

What I did since last progress report:

Went through the growing pains of switching to remote work and figuring out how to get things done while staying at home full time. In terms of our web app, I implemented emails to send when a user's trial is close to expiring, and when the trial has expired.

Anything holding me up on my last progress report's expected activities:

Things have been absolutely insane since last progress report, which is why this report is being submitted late. COVID-19 shutting down the entire UND campus and movie theaters nationwide has dramatically changed the nature of our plans, and so everything was in chaos for a while. After a couple weeks of this, things are starting to run smoother and more productively.

What I plan to do before the next progress report:

Finish working on some clickable icons on the dashboard that show the most recently updated project, and the user's number of videos uploaded. Various other improvements as needed.

Date: 03/29/19

Team Progress (0 -- 3): __3_____

*The **team advisor** needs to fill out a value 0 -- 3 and email the completed progress report to Mr. Nordlie at john.nordlie@und.edu*

1 -- no progress has been made by the team
2 -- insufficient progress has been made for the team to complete their capstone
3 -- sufficient progress has been made for the team to complete their capstone
4 -- excellent progress has been made by the team

Report Quality (0 -- 3): _____

This will be filled out by Mr. Nordlie after the report has been emailed.

1 -- missing or empty report
2 -- report briefly written with incomplete sentences, lacking descriptions of work
  2 -- well written report with sufficient description of work performed since last progress report
3 -- excellently written report with detailed description of each team members progress
