CS 492/493 Progress Report.

Instructions: *Each team member should enter their activities performed for the capstone project in the last two weeks, as well as their expected activities for the next two weeks, along with anything holding them up on completing their activities. These should be discussed by the team and their advisor(s) during the weekly/biweekly meetings, and the advisor(s) should sign and date the sheet indicating a correct assessment of the team's progress. Students need to upload a signed and scanned version to blackboard. Progress reports uploaded to blackboard without a signature and score for progress will receive a 0 for progress.*

Team/Project Name: Project Rebel

Team Member #1: Seth Thoelke

What I did since last progress report:
 See Grant's response. We spent our work hours the last couple weeks pair programming. Primarily profile picture uploads and Google/Facebook logins.

Anything holding me up on my last progress report's expected activities:
 Nothing is holding me up.

What I plan to do before the next progress report:
 As Grant said, the project is largely complete in the scope of the senior project. That said, there is always more to do, and most of our tasks lately have been relatively small, isolated pieces of the larger framework, so we don't always know what's next.

Team Member #2: Grant Haataja

What I did since last progress report:

Finished the user profile picture upload feature. Started working on implementing Oauth logins via Google and Facebook. Most of the work is done for that, we mostly just need to test it more thoroughly.

Anything holding me up on my last progress report's expected activities:

Nope.

What I plan to do before the next progress report:

Finish testing for Oauth logins and complete whatever other tasks given. At this point we have reached substantial completion of our app, at least within the scope of our senior project. The product would be in production right now if it weren't for the shut down of movie theaters nationwide. More bug fixes and minor additions are still necessary, but we started with nothing in September and now we have a fully-functional web application.

Date: 04/26/20

Team Progress (0 -- 3): _3_____

*The **team advisor** needs to fill out a value 0 -- 3 and email the completed progress report to Mr. Nordlie at john.nordlie@und.edu*

1 -- no progress has been made by the team
2 -- insufficient progress has been made for the team to complete their capstone
3 -- sufficient progress has been made for the team to complete their capstone
4 -- excellent progress has been made by the team

Report Quality (0 -- 3): _____

This will be filled out by Mr. Nordlie after the report has been emailed.

1 -- missing or empty report
2 -- report briefly written with incomplete sentences, lacking descriptions of work
  2 -- well written report with sufficient description of work performed since last progress report
3 -- excellently written report with detailed description of each team members progress
